

Dr. Christiane Schmidt

TNFL01 - flygtrafik och flygtransporter

Homework Set 3, 2018

Solutions for the responsible group are due September 10, 2018, 13:00. All other solutions are due September 12, 2018. **Please put your name on all pages!**

Airline Network

An airlines route network is often a mix of pure hub-and-spoke and pure point-to-point systems. Discuss how an airline can exploit the advantages and avoid the disadvantages of those two extremal network types by using a mixed route network.

The assignment should be handled in groups and a short report should be submitted.

The report should be both sent by email to christiane.schmidt@liu.se and uploaded to lisam no later than the due date.

It should be noted that the memo will be sent to URKUND (<http://www.orkund.com>), a plagiarism checker to ensure original content.

The presentation of the responsible group and the opposition will take place on **September 14**.

Until the day of the seminar all students are expected to read the report.

Assessment criteria

- You should comply with the assignment and all relevant questions should be discussed.
- Background facts should be correct; content has to be objective and relevant and a red thread should run through the high quality text.
- Good structure, layout and outline; the text should be easy to read and written in good, understandable English.
- Sources should be relevant and sources must be stated clearly.
